

ESM WS

Stimulating day.
Quite comprehensive
Great start

THOUGHTS

- **Follow up meetings are recommended.**
- **In the near future such meetings should be focused on a task goal**
- **An ESM Strategic Plan**
- **A Business Plan**
- **Developed by NCAR, DOE labs and other major partner research groups.**
- **Needed for the researchers and for communicating and iterating with funding agencies**
- **From Vision -----> Implementation (Funding)**

IMPORTANT

Must deal with total clarity with what's to be done by NCAR (NCAR resources) and what can and will be done by other institutions partnering with NCAR.
